

Econometrics III

2-Day Professional Development Seminar

East Asia Training & Consultancy Pte Ltd, is happy to invite you to attend a two-day professional development seminar on **Econometrics III** in Singapore.

Programme

This course will present an advanced treatment of econometric principles for time series and dynamic models data sets. The course will focus on modern econometric techniques, addressing both technical derivations and practical applications. Applications in the areas of microeconomics, macroeconomics and finance will be considered.

Prerequisites

Introductory Econometrics, Econometrics II, Calculus and Matrix Algebra

The applied work will be performed using a software program called EViews or STATA. Data sets for the applications will be provided. Participants are advisable to bring their own preinstalled laptops if they wish to try out the applied work during this seminar.

Topics covered

Econometrics III: Time Series and Dynamic Models

- Models for stationary time series
- Trends and seasonal
- Regression models with lags
- Vector autoregressive models
