# The Practice of Health Economics using Stata

## 2-Day Professional Development Workshop in Singapore

---

**East Asia Training & Consultancy Pte Ltd** invites you to attend a two-day professional development workshop in Singapore, using Stata to analyse health economics.

### Course Outline

The course will run for 2 days and will cover the following topics:

- Developed an understanding of economic concepts applied to health and of health services policy.
- Developed an appreciation of the links between economic evaluation and economic theory, health services research and decision making.
- Developed practical skills in economic analysis of health problems.
- Extended analytical skills in both quantitative and qualitative research methods.
- Extended skills of critical appraisal and be able to apply the results of the research to practice and to health services decision making.

Each participant is required to bring their own laptops with Stata installed in them.

### Who should Attend

This course is open to all academics, researchers, policy makers, and other health professionals.
